Public Advocate of the United States § Official Senate Candidate Survey  
*Public Advocate of the US is a 501(c)4 organization that lobbies against the Homosexual Lobby*

Public Advocate of the United States *is* the frontline in the war to defend traditional values and Biblical morality in America. For more than 30 years, Public Advocate and our supporters have been the first into each new fight -- and the last to keep fighting. The Family Values Survey you hold in your hand is the best tool Pro-Family Americans have for determining where Senatorial candidates stand on core issues -- and for holding the winners accountable once in office.

First and foremost on the minds of the majority of Americans is the issue of Real Marriage. In nearly every state, the majority of voters overwhelmingly decided to codify marriage in their state as the union of only One Man and One Woman -- either in the form of laws or even state constitutional amendments. These laws stood, until the U.S. Supreme Court chose to drastically expand their power and strike down these laws and amendments across the country. America needs Pro-Family advocates in the Senate who will work to restore the rightful Real Marriage laws in all 50 states. One of the best options currently available is the Restrain the Judges on Marriage Act.

Right now, Christian business owners in America are being targeted for destruction by the Homosexual Lobby. Christian bakers, photographers, florists and event-hosts are losing their 1<sup>st</sup> Amendment right to Religious Liberty. They are being forced to participate in objectionable homosexual “weddings” -- or else. Those who have dared to refuse have been sentence to Homosexual Reeducation Camps, seen their businesses closed...one family was even fined their entire life-savings over a single wedding cake.

Matters for Christian employers will only get worse if the Homosexual Lobby is able to pass their Super Gay Bill of Special Rights. This legislation specifically targets employers; forcing them to adopt and promote the Homosexual Agenda in the workplace. The Homosexual Lobby is also working to punish religious institutions (Christian churches, schools and advocacy groups) who oppose the Homosexual Agenda by stripping them of their tax-exempt status.

The “transgender agenda” has become the new favorite cause of the Left. They are demanded that public bathrooms and changing rooms be opened up to predators, that children be subjected to abusive medical treatments, therapy and even classroom lessons, and have written entire curriculums to force the “transgender and homosexual agenda” into every lesson. Parents are being denied their God given right to protect their children from the lessons of the Left, nor to get their children the proper medical treatment.

Christian liberty, traditional values and the health of our children have never been more threatened. America needs leaders who are willing to fight back against the Homosexual Lobby.
